

Illustrating HIV/AIDS in the United States

Los Angeles, CA

2013 Update

About AIDSVu

AIDSVu is a compilation of interactive, online maps that allows users to visually explore the HIV epidemic in the U.S. alongside critical resources such as HIV testing and treatment center locations.

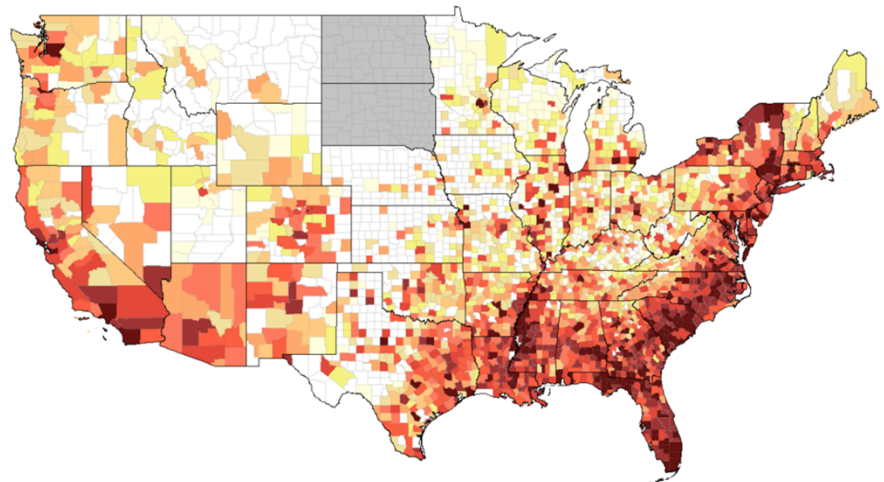

AIDSVu's mission is to make HIV prevalence data widely accessible and locally relevant.

AIDSVu provides users with an intuitive, visual way to connect with complex information about persons living with an HIV diagnosis at national, state and local levels.

Interactive Maps

National, State, and Local Maps

- Persons living with an HIV diagnosis by state, county, ZIP code and census tract
- Social determinants of health (e.g., poverty, lack of health insurance, educational attainment)
- HIV transmission modes
- HIV testing and treatment center locations
- NIH-funded HIV Prevention, Vaccine & Treatment Trials Sites

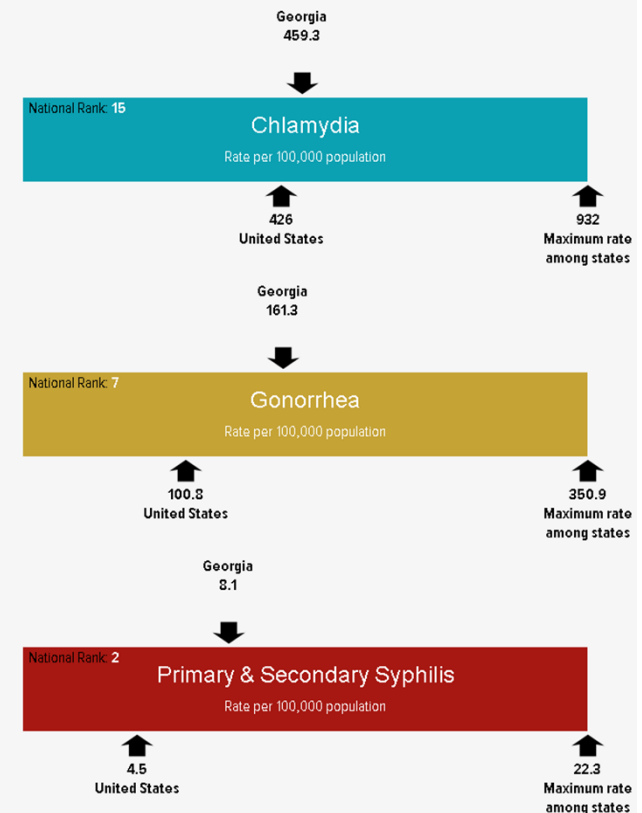

State Profiles

- State demographics
- HIV prevalence rate ratios by race/ethnicity
- HIV transmission modes, late diagnoses and mortality data
- HIV/AIDS federal grant funding and programs
- STD quick facts
- Website links for state-level HIV/AIDS resources

State Profile: Georgia

Sexually Transmitted Diseases (2010)

Other AIDS^Vu Features

HIV Testing Site Locator

- CDC National Prevention Information Network
- Search by ZIP code or city & state

HIV Treatment Site Locator

- Ryan White HIV/AIDS Medical Care Providers
- Search by ZIP code or city & state

Downloadable Resources

- Slide decks with high-resolution maps
- Data sets

1717 Columbia Rd NW

The map displays the city of Washington, DC, with various streets and landmarks labeled. Red cross icons are placed throughout the city to indicate the locations of HIV treatment sites. The map includes a search bar at the top left, a search button, and a list of search results on the left side. The map itself is on the right side, showing the city's layout and the locations of the treatment sites.

AIDSVu: Supporting the National HIV/AIDS Strategy

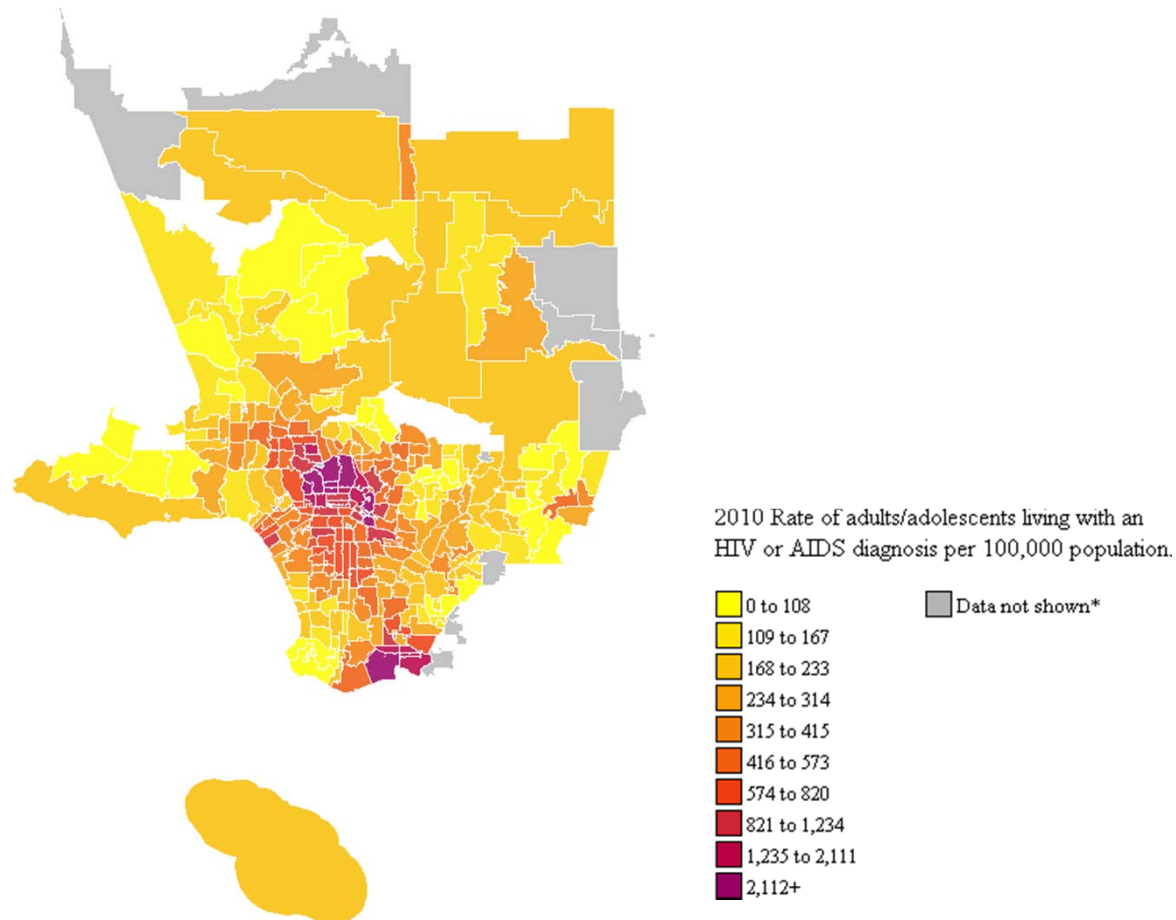

- Prevent new HIV infections
- Improve linkage to prevention, care and treatment
- Reduce HIV-related health disparities

A NATIONAL HIV/AIDS
STRATEGY FOR THE
UNITED STATES

JULY 2010

Caveats & Limitations of AIDSVu Maps

- Data on AIDSVu may differ from data released in state and local HIV surveillance reports.
- Maps are inclusive of incarcerated persons and should be interpreted with caution.
- AIDSVu maps do not reflect undiagnosed cases.
- Caution should be exercised when comparing maps because the scales change when viewing data overall and by race/ethnicity, sex and age group breakdowns.

Additional Resources

For maps of state-level data that include HIV and other sexually transmitted infections (STIs), visit the CDC's National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention (NCHHSTP) Atlas: www.cdc.gov/nchhstp/atlas/

For more information about HIV prevention, visit: www.cdc.gov/hiv/strategy/hihp/ and <http://aids.gov/federal-resources/hiv-aids-programs/prevention-programs/index.html>

For additional state health facts and HIV/AIDS policy fact sheets, visit the Kaiser Family Foundation's website: www.kff.org/hivaids/index.cfm
