

# NATIONAL HIV TESTING DAY

Take the Test. Take Control.

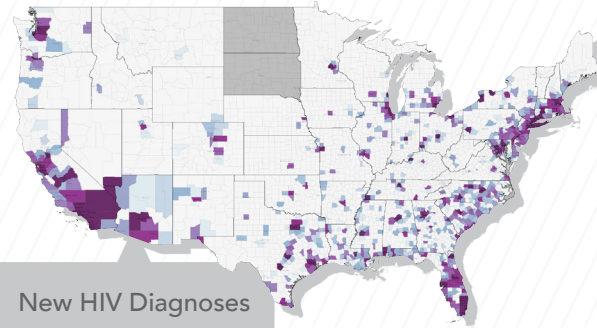

06.27.14

HIV has always been about what you do; **today it is also about where you live.**

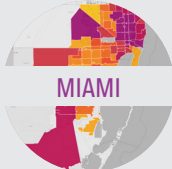

National HIV  
Prevalence

New HIV Diagnoses

**92%** of new  
U.S. HIV  
diagnoses  
occur in **25%**  
of counties.

MIAMI

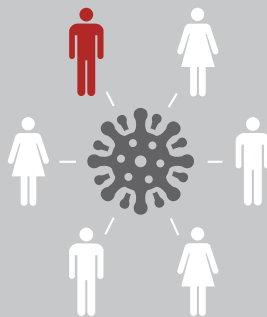

NEW ORLEANS

BATON ROUGE

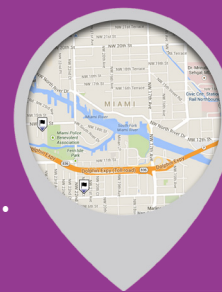

...these three cities have the **highest new HIV diagnoses rates** in America

**1 in 6 people**  
in the US  
who have  
HIV **do not**  
**know** they  
are infected.

The only way to  
know if you  
have HIV is  
**through testing.**

FIND LOCAL TESTING SITES AT  
[AIDSVU.ORG/TESTING](http://AIDSVU.ORG/TESTING)

**Between 13 & 64?**

The CDC recommends  
everyone between these  
ages get tested for HIV **at  
least once**, and those with  
increased risk **get tested  
more often.**
