

HIV TESTING AND NEW DIAGNOSES IN U.S. STATES

Percent of Persons Ever Tested for HIV, by State, 2013

Rates of Persons Newly Diagnosed with HIV, by State, 2013

“We need to identify persons earlier in the course of HIV infection so that they can maximally benefit from treatment and prevent onward transmission, which will require that we re-double our efforts and emphasize more widespread HIV testing.”

– Michael Mugavero, MD, MHSc, Professor, Division of Infectious Diseases
University of Alabama at Birmingham, School of Medicine
